UNITED MINE WORKERS'

Conference at Columbus Prac tically Declares the Strike Off.

A Variety of Opinions from Iowa and Illinois as to What will be Done. Building Trades Will Strike in Many Cities-Impossible to Tell What the Day will Davelop in the Country

Columbus, Outo, April 30.—The determination of the Executive Board of the United Mine Workers and the presidents of the State organizations at their meeting in this city the first of the week to deler the strike in the interest of the eight hour labor day, does not seem to have definitely settled the question, even among the miners of Ohio. The laboratory Beard also made a recognitive work of the present contracts until the head to act they have gone as far as they can with out the carpenters, when they will find themselves simply worked out of a job—not locked out.

The bricklayers, numbering 1,200, are also brought into the fight, owing to a fectual of their demands for a uniform organization, will also be forced into a grant and the present contracts until the point of the phave gone as far as they can without the carpenters, when they will find themselves simply worked out of a job—not locked out.

The Ohlo miners also convened this morning, and a committee has been appointed for conference with the operators. It is not expected to conclude business before to-morrow. The operators have made a proposition that they will now the present prices, seventy cents for the Hocking Valley, with other districts on the usual graded scale for the State, if the miners will concede the point in regard to the nine-hour day and leave that open so as to give the operators an opportunity to mest competitors. The miners of Ohlo vary in their day's work from three to four hours, according to the district.

There are no reports indicating a strike and the leaders confidently expect a compromise before the conventions adjourned in this city.

Some of the miners delegates to the State convention representing strong districts are disappointed over the action of the Executive Board of the United Miners in postponing the strike will be Settled one Way or the Other Scon.

A GREAT FEDERATION

Of Railway Employee-Four Orders Allinoid and the leaders of the other w

tion of the Executive Board of the United Miners in postponing the strike for the eight hour day. There is much stronger sentiment in that direction than has been reported, but the National officers expect their course will be indorsed. There is nothing, however, to indicate the miners in any field of the State will sent to morrow, and no other lines of go out to-morrow, and no other lines of trade have made preparations in that di-rection, having been led to believe the miners would take the initiative.

SITUATION AT ST. LOUIS.

St. Lauis, April 30.—If the develop-nents in the labor situation can be s forerunners of what is to happen to-morrow, one of the most serious strikes in the history of the most serious strikes in the history of St. Louis is imminent. The number of men whe will go out will number fully 5,000. The Carpenters Council has received a notice from the headquarters of the Brotherhood of Carpenters and Joiners, at Philadelphia, warning the members to stay away from East St. Louis on and after May I, as the prospect of trouble there is very imminent. The men, it seems, have been preparing for the trouble on the east side of the river, as well as St. Louis proper. Their strength in East St. Louis is estimated at 7,000, which includes the the history of St. Louis is imminent.

A Variety of Feeling

BURLINGTON, IA., April 30 .- Advices received by the Hawkeye from various points in Illinois and Iowa, indicate s variety of feeling on the part of the laboringmen concerning a strike to-mor-row. There is great dissatisfaction in Fulton county, Illinois, among the of Ottumwa is just the opposite, they other trades of this vicinity.

Two Thousand Will Go Out, LA SALLE, ILL., April 30.—To-morro morning all the coal shafts in this vicinity, excepting the White Breast Fuel Company's mine, will shut down and 2,000 miners and company men will be out of employment. It is understood there is no strike at present, but no contracts for the coming year have yet bee made between the operators and the am-ployees, and until these are affected no coal will be mined here.

In order to back up the carpenters the other building trades had decided to strike for eight hours providing only that the Master Builders locked the carpenters out.
